Commanders,

Just a little info about the canoe trip. You will be responsible for everything you need for your outpost. We provide canoes if you need them. You must inform us of how many canoes you need. 2 people per canoe. If there are not enough canoes, 3 to a canoe. After breakfast we load up and from the launch point get going down the river. There will be instructions that morning. You need to make sandwiches snacks and drinks for lunch on the river. Use baggies (zip lock) 2 bags. One over the 1st one. A cooler with ice will keep everything fresh. Water is better than pop. Rope the cooler into the canoe and also rope the cooler shut so if you flip the canoe you won't loose everything. Everyone will need life jackets. The boys need to wear them on the river. We have them but you can bring them if you want to. We do not want anyone to drown. Your boys need to stay with you on the water. After the days trip we pull out of the water and do dinner. Next day we go back down the river. Lunch this day as well. Then we pull out. Load up, and head home. You will need a water scooper to bail out the canoe. Cut the top off a plastic bottle. No ramming canoes into each other. Do not flip over any canoe. If you flip your canoe stay with the canoe. Hold on to it and another canoe will help you. Do not chase after paddles. Again stay with the canoe someone will get the paddle.

Boys will need to wear an old pair of shoes (no flip flops or sandals) so they do not step on a sharp object in the water. Bug spray and sun block are needed as well. This will give you an idea of how things go. Questions? Call or e-mail me.
